INTEGRATED PROPERTY & FACILITY MANAGEMENT SYSTEM

Introduction

Integrated application of technology-based “adaptive” (according to the needs of the client) for the management of property, facilities and assets in it with the aim of creating the effectiveness and efficiency of enterprise resources, improve supervision and provide better service to the users property and increase the life of the asset.

COMPANY PROFILE

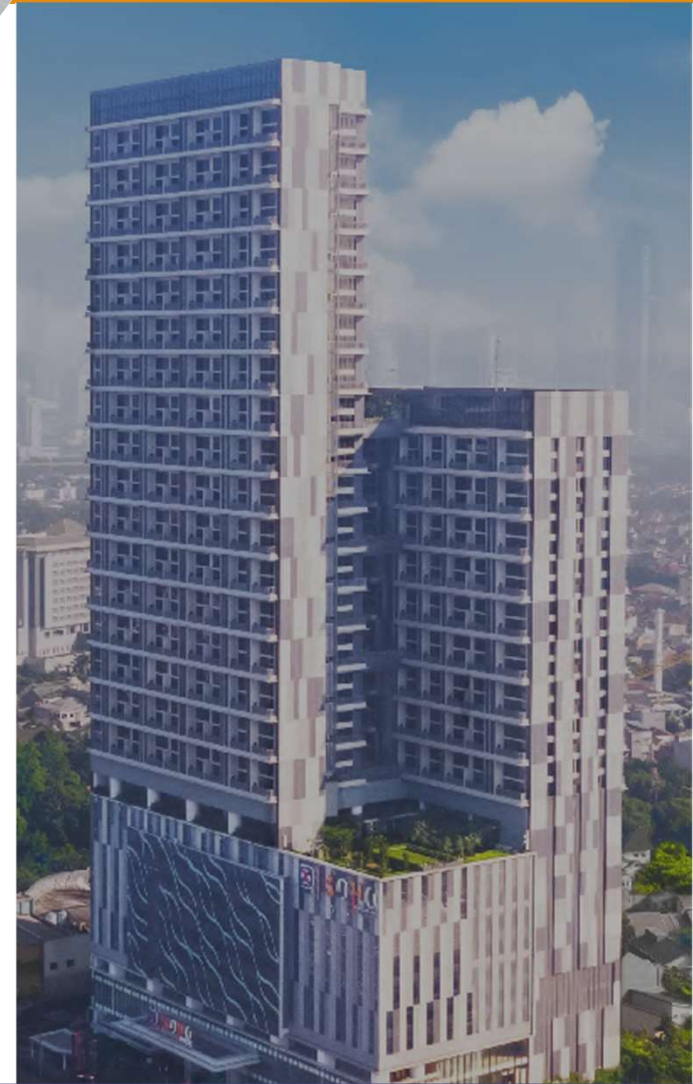

www.prime-psi.com

Core Business:

- Property & Facility Management Software Solution

Office:

- PT. Propertindo Solusi Informatika
SOHO Building, Splendor Tower 11-08
Jl. Letjen. M.T. Haryono Kav.2, Pancoran
Jakarta Selatan 12810
- Telp. +62 – 40225891
- Establish: April 2008

PRIME SOLUTIONS

PRIME SERVICES

PRIME provide software that streamlines the day-to-day operations of managing properties, from tenant and lease management to accounting and financial reporting. With the use of property management software, real estate professionals can improve their efficiency, communication, and profitability while reducing errors and increasing accuracy. In this rapidly evolving industry, PRIME are at the forefront of innovation, providing solutions that are essential for managing properties in today's digital age.

Expert Team

Have experts who are highly experienced in implementing the Integrated Facility & Property Management System.

Customizable Module

Modules in the "Integrated Facility & Property Management System" is very complete and integrated with each other, and can be customized according to the needs.

Short Implementation Time

Relatively short implementation time because the needed modules have largely already implemented.

Complete Support

Has a complete team (Project Manager, Software Architect, implementer, etc.) to support the development, implementation, and help for data conversion.

Friendly Interfaces

We develop and design the interfaces based on experiences with multiple user cultures and we provide Multi-User app with the number of users are not limited.

Desktop Application

prime
property | software | innovation

Web Application

Mobile Application

PRODUK

PRIME MOBILE and PRIMO

Mobile application for building operations, request and complaint management, and other features

Tenancy Billing

Provides tenant management and print invoices, covering consumption for multiple commodities such as Electricity, Water, Gas.

Cash & Bank

Provides information relating to cash flow of the building management, by processing and analyzing all cash and bank transactions.

Purchase Order

Provides tremendous assistance in streamlining and organizing all the purchases (PR, PO, AP, etc.) your building needs to make in order to succeed.

Maintenance Management

Provides tenants request and complaint management and preventive maintenance activities designed to maintain and repair all types of assets.

General Ledger

Provides financial statements like general ledger, trial balance, balance sheet and profit and loss and generate clear dynamic statements and get your reports, the way you like them.

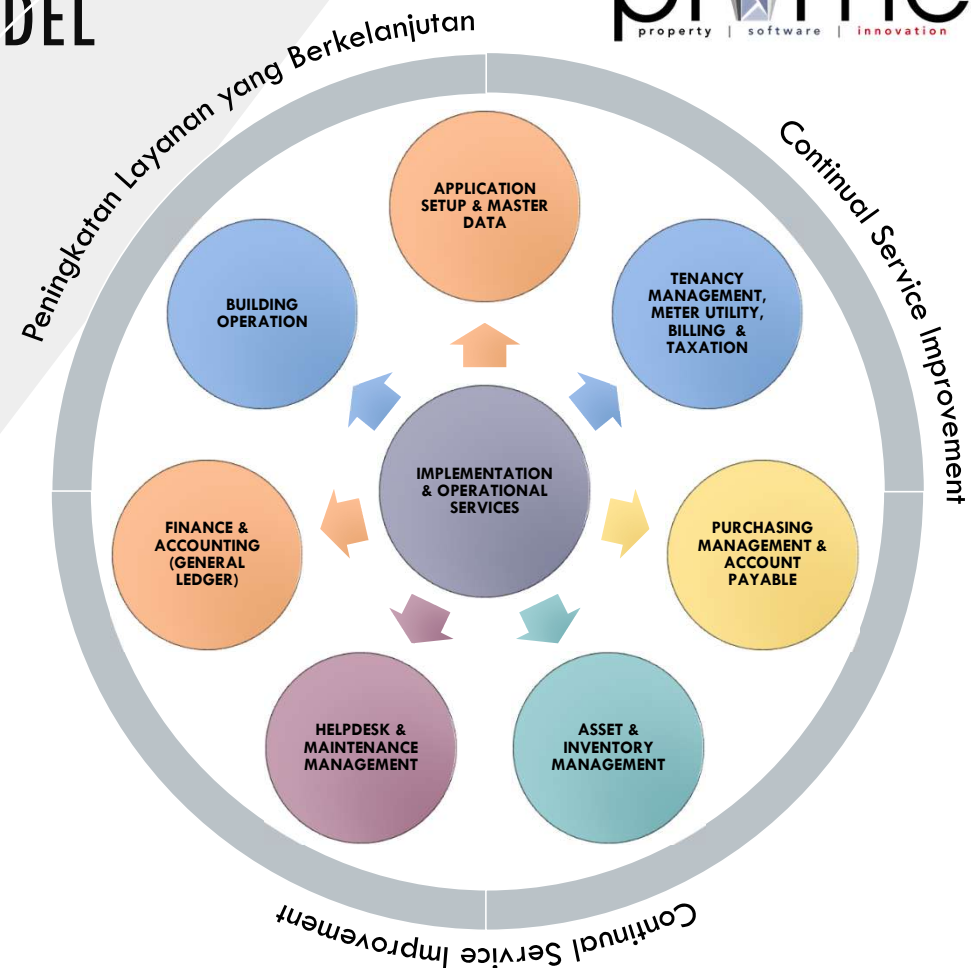

Executive Information System

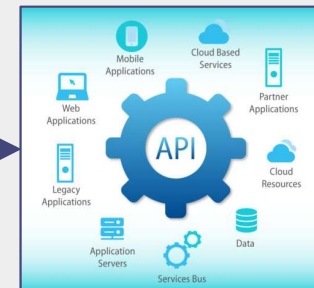

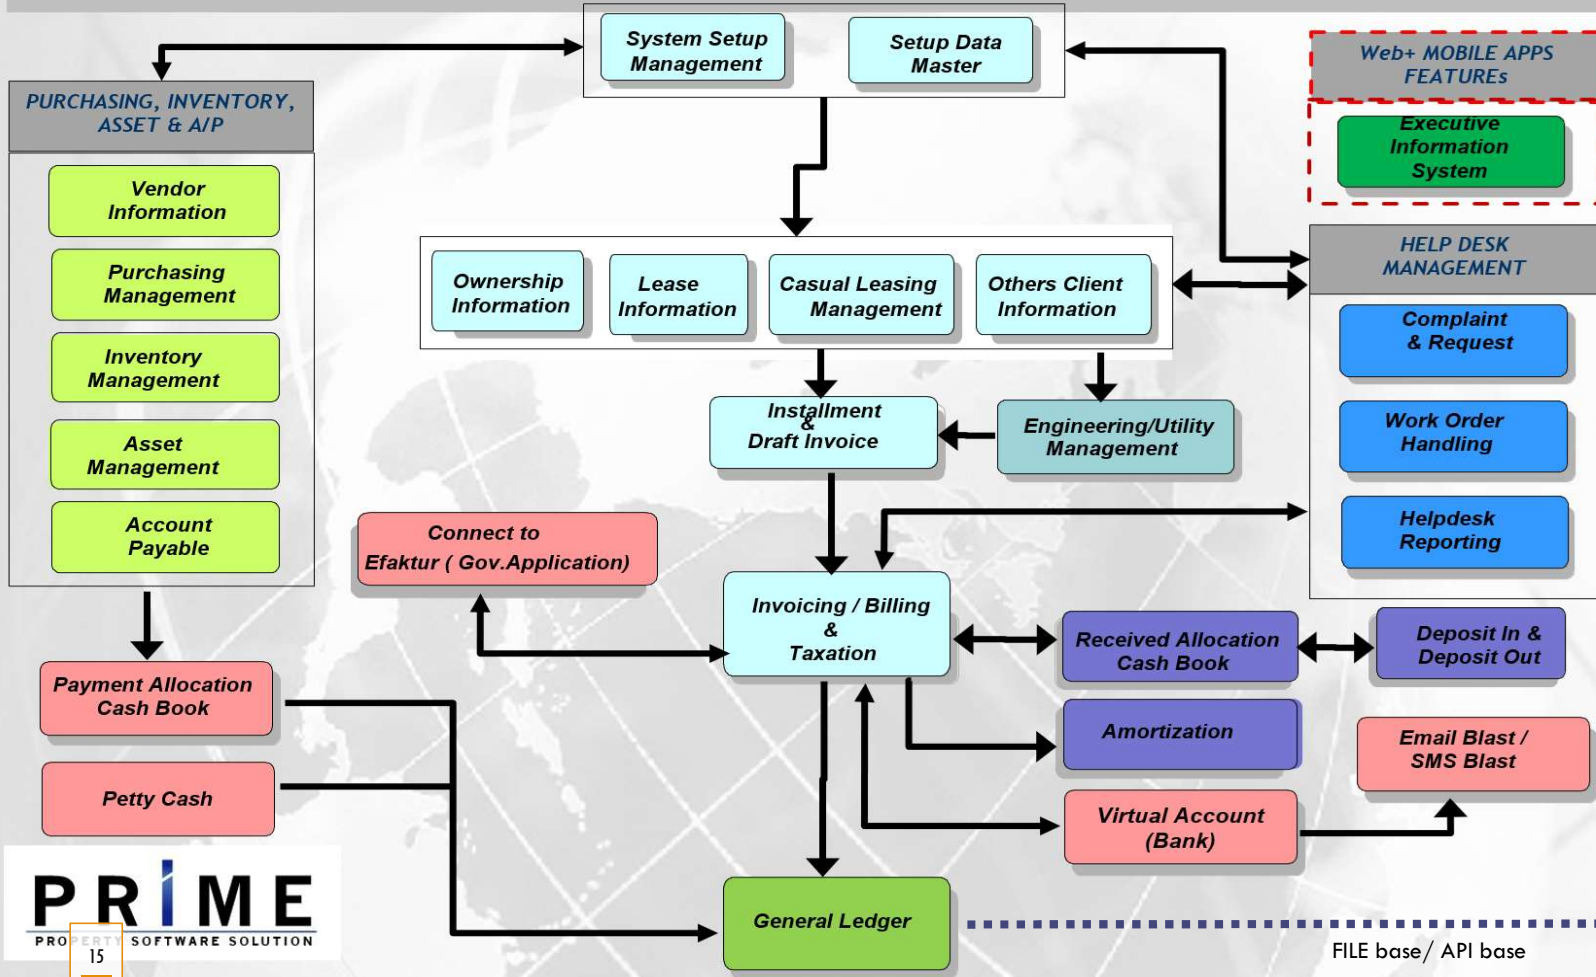

Provides real-time summarized information that integrates data from all our products used to assist executives in the decision-making process in a user-friendly format.

SERVICE BENEFIT & SOLUTION MODEL

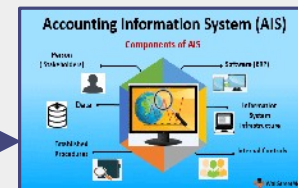

- Penerapan Digitalisasi → Transformasi Digital dalam pengelolaan properti/building
- Peran system yang semakin penting untuk :
 - Meningkatkan efesiensi dan produktivitas
 - Mengurangi biaya operasional
 - Meningkatkan knowledge/pengetahuan dan kemampuan untuk para personil
 - Dapat diintegrasikan dengan aplikasi/system lain
 - Kemudahan mendapatkan informasi → berefek untuk pengambilan keputusan
 - Meningkatkan obyektivitas dalam memberikan penilaian terhadap kinerja personil
 - Kemudahan memantau kinerja per properti
 - Optimalisasi teknologi untuk mendukung kinerja
